

YAN QING LIU

yanqing.liu2@dukekunshan.edu.cn

EDUCATION

University of New South Wales Sydney, Australia | 2025 – 2026

M.S. in Information Technology

Coursework: *Interactive Design, Data Structure and Algorithm, Web Front-End Programming*

GPA: 90.333/100, High Distinction

Columbia University New York, USA | 2021 – 2023

M.S. in Applied Analytics

Coursework: *Research Design, Storytelling with Data, Applied Analytics in the Organizational Context, Applied Analytics Frameworks and Methods, Applied Text and Natural Language Analytics*

GPA: 4.132/4.3

Macau University of Science and Technology Macau, China | 2016 – 2020

Bachelor of Applied Economics | Major GPA: 3.86/4.0 | Rank: 2/882 students in the school of Business

Coursework: *Advanced Mathematics, Linear Algebra, Statistics, Behavioral Economics, Game Theory*

PUBLICATIONS & PRESENTATIONS

Deng, W., **Liu, Y.**, Chen, Y., Zhang, H., Li, Y., Mi, H., & Yu, C. "CoSim: Identifying Communication Patterns and Skill Development for Fudaoyuan in Chinese Universities." *UIST 2026 Short Paper*. [Under Review]

Liu, Y. "Mindful-Scroll: Linking Interaction Logs to Self-Reported Mental Health and Well-Being, and In-App Interventions." *Digital Mental Health International Conference 2026*, Hong Kong, China, June 2026. [Presentation]

Liu, Y., Zhu, Y., & Jin, Y. "Simulated Douyin-Style Short Video: Linking Interaction Logs to Self-Reported Mental Health and Well-Being, and In-App Interventions." *CHI 2027 (Full Paper)*. [In Preparation]

Liu, Y., Zhu, Y., & Jin, Y. "A Conversational AI Agent for Short-Form Video Use: Dialogue-Derived Features for Improving Stress and Anxiety Prediction." *Information Processing & Management Conference 2026 (IP & MC 2026), Dataset and Full Paper*. [In Preparation]

RESEARCH EXPERIENCE

Full Time Research Fellow Duke Kunshan University 02/2026 – 02/2027

Supervised by Prof. Yucheng Jin | Hybrid Interactive Intelligence (HII) Lab

Leading a two-phase research project investigating how short-form video interaction behaviors signal users' stress, anxiety, and daily mental well-being, and designing in-app interventions to foster a healthier platform environment

- Independently designed and built Mindful Scroll with React and JavaScript, a simulated Douyin-style platform deployed in a Dockerized Aliyun cloud environment that links fine-grained interaction logs with daily self-reported well-being signals for longitudinal analysis.
- Conducted a pilot study (N=32) that identified a four-trace stress/anxiety usage cluster, directly informing prediction modeling and intervention design across both Phase I and Phase II.
- Developing a mixed-method analysis pipeline combining logistic regression, tree-based models, and AR/MA time-series modeling with thematic analysis of post-phase surveys and interviews.
- Preparing a conference presentation for the Digital Mental Health International Conference 2026 and a manuscript for submission to CHI 2027.

Research Intern Tsinghua University 12/2025 – 02/2027

Supervised by Dr. Jie Cai | Pervasive HCI Group

CoSim

Investigated how Fudaoyuan's conversational strategies affect distressed students' emotional and interactional responses in Chinese university settings

Dean's Scholarship	2019
Australia's Global University Award	2025
Nam Kwong (Group) Company Limited Scholarship	2018
Luso International Banking Ltd. Scholarship	2019
